SUMMARY

Imaging and colour specialist with 7+ years of post-production experience across colour grading, digital imaging pipelines, and on-set media workflows — with 60+ delivered projects spanning narrative film, VFX-adjacent productions, and branded campaigns. Expert in DaVinci Resolve across Rec.709, Log, and HDR colour pipelines including full DCP delivery for cinema. Deep hands-on experience in the complete imaging workflow: media ingestion, secure offload, QC, metadata organization, colour space management, and multi-format delivery. Background as on-set DIT bridges creative and technical environments. Detail-oriented, collaborative, and eager to support artists and production teams within a world-class post production pipeline.

EXPERIENCE

Colorist / Editor · Freelance Jan 2020 - Present

- Managed complete colour pipelines end-to-end — from dailies ingestion through DCP final delivery — for 60+ narrative films, fashion brands, and commercial clients.
- Executed colour grading in DaVinci Resolve and Premiere Pro across Rec.709, Log, and HDR colour spaces; maintained image integrity and colour consistency across broadcast, social, and web deliverables with full QC sign-off.
- Built and delivered DCPs for cinema room screenings, managing complete imaging pipeline from camera originals through final output, including colour space conversions and codec compliance.
- Verified metadata, export specifications, and cross-platform compatibility at each delivery stage; troubleshooted imaging inconsistencies and resolved technical issues under deadline pressure.
- Maintained clear communication with directors and clients through structured feedback cycles; consistently met aggressive delivery deadlines across concurrent projects.
- Delivered visual content across a wide range of formats and subject matter — from sensitive health education series to luxury brand campaigns — consistently translating complex information into clear, audience-appropriate visual narratives.

Camera Operator / Assistant · Freelance Jul 2021 - Present

- Operated ARRI, Sony, Canon, and Blackmagic camera systems on commercial and narrative productions; executed pull focus and supported lighting setups under DP direction.
- Managed full on-set media workflow: media ingestion, secure offload, file verification, metadata prep, and cross-platform QC; fulfilled DIT responsibilities across multiple production environments.
- Applied working knowledge of digital formats, frame rates, recording codecs, and colour spaces in fast-paced on-set environments where reliability is non-negotiable.
- Captured photo and video content across office, field, and studio environments; fulfilled DIT responsibilities including media management, file verification, and cross-platform QC on productions using ARRI, Sony, Canon, and Blackmagic systems.

Pre-Production Producer · DW Media Aug 2025 - Sep 2025

- Led complete pre-production for a web short drama: budget planning, shooting schedule, resource allocation, and vendor management for equipment, catering, and post-production handoff.
- Liaised with director, cinematographer, and production designer to align creative vision with production logistics; managed cast/crew scheduling, location scouting, and permits.

Video Editor & Colorist · Black Box Productions Mar 2024 - Sep 2024

- Edited and colour-graded YouTube long-form videos and commercial content from raw footage to final delivery; applied professional colour grading across broadcast, social, and web formats.
- Managed multiple concurrent projects in a fast-paced production environment while maintaining quality standards and meeting delivery deadlines.

Camera Operator / Editor / Colorist · Hangzhou Lintas Advertising Oct 2018 - May 2019

- Shot and edited promotional content for local brands; built foundational skills in camera operation, editing, and look development working directly with clients.

SELECTED PROJECTS

CAMH - An Expert Explains Series — Editor

20+ episodes of a digital health educational series for the Centre for Addiction and Mental Health. Delivered consistent visual quality and tone at pace across the full series run.

Crocs of the Caribbean - National Geographic (2026) — [Colorist \(in progress\)](#)

Color grading for a National Geographic documentary production. Currently in post-production.

Reves de Flos (2025) — [Colorist](#)

Feature-length film. Executed complete colour pipeline — from dailies review through DCP final delivery — with full post supervision and director collaboration. Managed colour space conversions, display calibration, and delivery specifications throughout.

Anastasia (2023) — [Executive Producer & Colorist](#)

Official Selection, CINELEBU - Lebu International Film Festival 2025 (Oscar & Goya qualifying). Led full colour post pipeline from pre-production through final DCP delivery; oversaw imaging and colour consistency across all deliverables.

Prada Story Special — [Editor & Colorist](#)

High-fashion branded content for Prada. Delivered multi-platform asset suite including social cuts and web masters, maintaining brand-consistent colour language and image integrity across all outputs.

Ader Error Campaign — [Colorist](#)

Fashion advertising campaign for the Seoul-based avant-garde label. Delivered a distinct, edgy visual aesthetic with precise colour control across multi-platform outputs.

Maxi-Cosi Campaign — [Colorist](#)

New product launch advertising for Maxi-Cosi. Part of an ongoing client relationship — delivered brand-consistent imaging and colour across multiple campaign phases, maintaining visual continuity across all assets.

Le Vian Jewelry — [Colorist](#)

Ongoing commercial work for a U.S.-based luxury jewelry brand. Delivered a premium, polished visual aesthetic closely aligned with established brand identity guidelines across multiple campaigns.

EDUCATION

BFA, Film Production — Mel Hoppenheim School of Cinema, Concordia University (2019 - 2023)

SKILLS

Editing & Post-Production Premiere Pro, DaVinci Resolve — Rec.709, Log, and HDR colour workflows; colour space conversions; LUT management; DCP delivery for festival and commercial release; multicam editing; sound clean-up; currently exploring Nuke for VFX colour pipeline workflow.

Motion Graphics & Design After Effects — motion graphics, animated content, titles, logo animations, and branded templates for social and digital platforms; Photoshop (stills, overlays, compositing, brand assets); Illustrator (graphic assets, visual templates)

Audio Adobe Audition — dialogue clean-up, audio sweetening, and sound mixing for video deliverables

Camera & On-Set ARRI, Sony, Canon, Blackmagic — camera operation, pull focus, DIT, on-set media ingestion and offload, file verification, metadata organization, cross-platform QC; photo and video capture across office, field, event, and studio environments

Formats, Codecs & Delivery ProRes, DNxHD, H.264/H.265, RAW formats, DCP; digital cinema resolutions; broadcast frame rates and specifications; aspect ratios, resolution, compression, and platform optimization for social (vertical, square, short-form), broadcast, and web

Platform & Social Social-first content optimized for Instagram, YouTube, TikTok, Reels, and Shorts; platform-specific best practices for format, pacing, and visual presentation

Production Workflow & Tools Pre-production planning, scripting, storyboarding, shot lists, scheduling; project management across concurrent productions; Shotgun Pro, Frame.io, Dropbox, WeTransfer; Microsoft PowerPoint (integration of video, animation, and visual assets for presentation formats)
